AMERAPEX SERVES GLOBAL MARKETS

AMERAPEX CORPORATION, is a leading edge engineering and procurement alliance providing integrated engineering and procurement solutions for managing the entire purchasing cycle from requisition to receipt of materials and MRO (Maintenance, repair, and operations) allowing both localized order execution and global leverage.

AMERAPEX offers the most comprehensive line of commercially available equipment and materials for the oil and gas, refining, petrochemical, pipeline and gas processing industries

worldwide. Our extensive knowledge and experience has enabled us to provide full engineering and procurement services to organizations around the world.

AMERAPEX provides expert staff in all engineering disciplines primarily chemical, electrical, mechanical, instrumentation and control. These specialists work closely with a highly trained procurement staff to deliver the best equipment and materials to our clients. Occasionally, in the absence of adequate information provided by our clients,

our highly qualified staff identify, locate and provide a wide selection of equipment to meet our clients' specific requirements. Our procurement staff is highly trained and experienced in the entire procurement life cycle and use a fully integrated supply chain system to achieve speedy service at the lowest cost and highest quality.

AMERAPEX provides a system linking suppliers with our clients providing management of the entire purchasing cycle.
